14. MLD Foundation - <http://www.mldfoundation.org/mld-101-what.html>

The screenshot shows the MLD Foundation website. The header includes the MLD Foundation logo and the tagline 'Promoting Education'. Below the header, there is a navigation menu with links to Home, About Us, What is MLD?, Research, and Education. The main content area is titled 'What is MLD?' and includes a sub-header 'MLD-101 ... A Layperson's Overview'. The text explains that MLD is a form of **metachromatic leukodystrophy**, a rare genetic disorder. It describes the disease as a 'storage' disease where a substance called sulfatide builds up in the brain and spinal cord, leading to neurological damage. The page also mentions that MLD is not contagious and can be passed to others through any sort of contact. It includes a section on 'Types of MLD' and 'Therapies & Research'.

15. The Beery Family webpage - <http://dystonia.thebeerys.com/>

The screenshot shows the homepage of 'The Beery Family' website. The header includes the website name and a navigation menu with links to Home, Journal, Articles, Videos, Links, Stories, and Community. The main content area features a large photo of a family (Jean, Sharon, and Alex) and a section titled 'Latest Updates' with three recent posts. Below this, there is a 'Featured Video' section with a video titled 'A Family Changed Forever By Sequencing Technology - Meet The Beerys'. The 'Latest Journal Entry' section includes a post titled 'Celebrating 13 years of freedom for Noah and Alex!' and a 'Latest Article' section with a post titled 'After 33 years of being misdiagnosed, Jean Sharon Abbott has new abilities'.
